

## Handsome Garment Steamer

This floor-standing steamer is a sustainable and efficient alternative to both ironing and washing. Your clothes will be wrinkle-free, smooth and fresh in no time. The hot steam also removes bad smells and bacteria.

The hot steam from a professional steamer relaxes the textile fibres – instead of pressing them with an iron – and restores them to their natural shape. The Handsome is a professional and powerful steamer used by major retailers and boutiques nationwide. It is ideal for laundries, lodges, hotels, retail stores and household use.

With dual power settings, the steamer effectively removes wrinkles and creases from a wide variety of fabrics, from delicates like silk through to heavier examples such as denim.

Designed for all-day, continuous use, the steamer features robust construction, with an impact-resistant outer casing, solid copper steam hose connection and a high-polished stainless steel plated steam head.
