D-Series Dryer

D-Series Industrial Tumble Dryers

SEVE dryers are equipped with fully automatic and programmable computer controls as standard. They are heavily constructed with stainless steel inner drums, have a wide door aperture for easy access and are energy efficient. All models feature an automatic reversing drum action for uniform drying and extended linen life, through reduced friction.

Key Features

- Stainless steel inner drum for anti-corrosion and longer service life.
- Fully programmable computer controller.
- Auto-reverse feature avoids tangling by varying the drum rotation.
- Large door aperture for convenient and optimum access.
- Large and easy to clean lint tray.
