

HANDHELD Garment Steamer

This handheld steamer is designed to remove wrinkles quickly and easily at home or during travel. Your clothes will be wrinkle-free, smooth and fresh in no time. The hot steam also removes bad smells and bacteria.

The hot steam from a steamer relaxes the textile fibres – instead of pressing them with an iron – and restores them to their natural shape.

The Handheld steamer is very compact. At just 0.00588m³ it requires very little storage room and will occupy barely any luggage space.

The steamer heats up within 2.5-minutes and with a 200ml water tank capacity, it provides enough steam for 15-minutes of continuous use; more than enough for last minute touch-ups while you're in a rush.

Despite its size the steamer features solid construction. The heating element is copper, while thermoplastic outer casing is both heat- and impact-resistant.

Features / Benefits

- 500W Heating Power
- 200ml Water Capacity
- Continuous steam up to 15 min.
- Produces steam within 150 seconds.
- Suitable for all fabrics except leather and suede.
- Compact size for storage and travel.

Specifications

Dimensions (mm)	150 (w) x 80 (d) x 280 (h)
Packed Dimensions (mm)	168 (w) x 85 (d) x 300 (h)
Net Weight (kg)	1.04
Steam Temperature (°C)	98
Water Capacity (l)	0.2
Power (W)	500W
Voltage (v)	220/50/1
