D-Series Dryer

D100 and D150 Industrial Tumble Dryers

The SEVE range of tumble dryers is available with electric, steam or gas heating. SEVE dryers are equipped with fully automatic micro computer controls as standard. They are heavily constructed with stainless steel inner drums, have a wide door aperture for easy access and are energy efficient. All models feature an automatic reversing drum action for efficient, uniform drying and extended linen life through reduced friction by avoiding tangling.

Key Features

- Stainless steel inner drum for anti-corrosion and longer service life.
- Fully programmable computer controller.
- Auto-reverse feature avoids tangling by varying the direction of the drum at irregular intervals.
- Large door aperture for convenient and optimum access.
- Inverter drive for smooth operation and extended service life.
- Large and easy to clean, stainless steel lint tray.

Essential Data

- Colour: White
- Capacity (kg): 100 or 150
- Heating Source: Electric, Gas or Steam
- Power Supply: 380v/50Hz/3Ph
- Warranty: 1-Year

Technical Specifications

MODELS	D100A	D150A
Capacity (kg)	100	150
Cylinder Dimensions (mm)	1200 x Ø1460	1200 x Ø1750
Heating Power (kW)	45	65
Motor Power (kW)	3.0	5.2
Exhaust Size (mm)	280	350
CYCLE CONSUMPTION		
Electric (kW/h)	37	53
Steam (kg/h)	160	210
LPG (kg/h)	3.45	4.95
DIMENSIONS		
Width (mm)	1740	1760
Height (mm)	2420	2800
Depth (mm)	1470	1830
Weight (kg)	800	1300
